

TECHNICAL INFORMATION SHEET

Product Name **BRAKE CLEANER 543g**

PART NO. RBC001

RevEng Brake Cleaner is formulated to clean and degrease all types of brake linings, rotors, disc pads and drums without disassembly. Its powerful cleaning formula removes brake fluid, road grime, dust, oils and grease, it is also suitable for cleaning other parts and workshop floors. It is a quick cleaning and quick drying brake cleaner.

RevEng Brake Cleaner provides the following benefits:

Removes brake fluid, grease and oil, suitable for disc and drum brakes, helps stop brake squeal. Quick drying time, cleans tools and parts, removes brake lining dust without disassembly. Improves brake performance and leaves no residue.

DIRECTIONS OF USE

Spray in a well-ventilated area, Spray directly onto areas to be cleaned making sure fluid penetration into moving parts and points of friction. Clean disks and pads by directly spraying with cleaner. Clean around calipers and pistons including linkages and moving parts. Protect painted surfaces, rubber and plastic parts from direct spray. Let air dry or wipe off with a soft cloth.
