

TECHNICAL INFORMATION SHEET

Product Name **CARBY/THROTTLE BODY CLEANER 500g**

PART NO. RCC001

RevEng Carby/Throttle Body Cleaner is professionally formulated to safely remove gum and varnish from air throttle plates and throttle plate shafts. It helps restore engine performance, by quickly removing gums and varnishes from the carburettor and restoring carburettor efficiency without the need to dismantle, it lubricates computer-controlled air-intake system components and protects against rust and corrosion.

RevEng Carby/Throttle Body Cleaner provides the following benefits:

Dissolves and cleans, removes gum, varnish and carbon build up. Cleans throttle and choke linkages. Decarbonises intake components, cleans petrol EGR valves and positive crankcase ventilating valves on direct application. It will improve airflow and fuel economy and is suitable for all petrol engines.

DIRECTIONS OF USE

NOT TO BE USED ON DIESEL ENGINES.

For throttle body, run engine to normal temperature, spray directly into the throttle body in short bursts while the engine is running.

For Carburettors, spray directly onto the parts that need cleaning including linkages and PVC valves. Use a rag to wiper components clean.
