

## TECHNICAL INFORMATION SHEET

---

Product Name **DIESEL ON CAR EXPRESS 350ML**

### PART NO. RDOCE350

RevEng Diesel On Car Express is a powerful cleaner that provides a good alternative for the use of an injector cleaning machine. The concentrated chemicals allow mechanics to flush injectors without the time consuming and costly process of removing and cleaning injectors. Simply added to fuel filter at the appropriate service intervals.

### RevEng Diesel On Car Express provides the following benefits:

Keeps injectors clean, reduces black smoke, increases power, restores injector spray patterns  
Reduces soot and provides a cleaner burn. Helps to reduce DPF blockages. Maximises fuel economy, improves acceleration, reduces emissions and exhaust particulates. Safe to use with oxygen sensors, DPF and other emission systems.  
Suitable for all Diesel Engines.

### DIRECTIONS OF USE

Engine should be at normal running temperature, remove fuel filter and empty contents, add new filter and fill with RevEng Diesel On Car Express, add diesel fuel to top up if required. Any excess chemical can be added to the fuel tank. Refit fuel filter and start engine, check for leaks and allow to run for 5 to 10 minutes or drive vehicle for minimum 2 Klms. Process complete.

FULL BEST RESULTS USE **REVENG DIESEL INJECTOR CLEANER (RDIC350)** IN THE TANK WITH THIS SERVICE.
