

TECHNICAL INFORMATION SHEET

Product Name **PETROL INJECTOR CLEANER 350ML**

PART NO. RPIC350

RevEng Petrol Injector Cleaner is an all-round premium fuel treatment. When added to the petrol tank it will begin working on the impurities already existing in the fuel. It will absorb and emulsify any condensation to allow it to safely pass through the entire fuel system. Detergents will quickly and safely remove any deposits and neutralise harmful acids. RevEng Petrol Injector Cleaner will clean the complete fuel system from the petrol tank through to the combustion chamber.

RevEng Petrol Injector Cleaner provides the following benefits:

Removes Deposits and Condensation

Dissolves Acids and Prevents Rust and Corrosion

Lubricates Fuel System and Valves

Keeps Injectors Clean and Improves All Round Performance and Fuel Economy

Will not harm catalytic converters or other emission systems.

DIRECTIONS OF USE

Add entire can to Fuel tank, treats 80 litres of petrol. For best results use every 10,000 Kms.

NOT TO BE USED IN DIESEL ENGINES.
