

## TECHNICAL INFORMATION SHEET

---

Product Name **TUFF N UP TAPE**

### PART NO. RTT05

RevEng Tuff N Up Tape is a unique first aid product that can easily replace band aids or bandages. Its design makes it quick and easy to apply to bloody wounds and cuts, it is comfortable and highly elastic so it allows you to keep moving the wounded area, it will not stick to skin or hair, it actually sticks to itself, and it has excellent bonding capability on wet, oily and dirty skin. It can also be used with ointments and creams, and is great at absorbing blood. It will speed up the process of healing much quicker when used. It is perfect for all trades, DIY and home use including all sports, fishing, camping and other activity related injuries. It comes on a large but compact 5 metre x 6cm roll.

### RevEng Tuff N Up Tape provides the following benefits

Absorbs blood, fast healing, comfortable, highly elastic, self-adhesive that will not stick to wounds or cuts. Convenient and easy to apply, long lasting. Allows you to set more pressure on a wound if necessary.

### DIRECTIONS OF USE

Simply open pack and tear off approximately 15cm of tape, wrap around wounded finger twice. Tape can be wrapped tighter if necessary to stop bleeding. Replace tape when necessary. For larger wounds and cuts you may need more than 15cm of tape. **SEEK PROFESSIONAL MEDICAL ADVICE IF NECESSARY.**
